

EDUCATION

Monterey Peninsula Community College	Remote
- Dual-enrollment, cumulative GPA: 4.00 - Coursework: CSIS 1, HIST 18, CSCI 9	Jan. 2025 - Present
Amador Valley High School	Pleasanton, CA
1560 SAT: 800 math, 760 reading / writing - Cumulative GPA: 4.00 u/w, 4.37 w/ - Relevant coursework: AP Computer Science A, AP Calculus BC, AP Statistics, AP Biology, Physics	Aug. 2024 - Present
Foothill High School	Pleasanton, CA
- GPA: 4.00 u/w - Relevant coursework: Honors Algebra 2, Biology	Aug. 2023 - May 2024

EXTRACURRICULAR ACTIVITIES

UC Davis COSMOS	Davis, CA
Summer program	Jul. 2025 - Aug. 2025
- Learned about machine learning and the details behind how it works from Dr. Moghimi and Dr. Pirsiavash. - Used PyTorch and NumPy to implement linear layers and CNNs from scratch. - Final project used vision transformers, a decoder (pre-trained on masked auto encoder), and a simple feature pyramid to improve the accuracy of SimpleClick's masks. - Demoed the research-focused project to 200+ attendees at the COSMOS Closing Ceremony.	
Aspiring Scholars Directed Research Program	Fremont, CA
Student researcher; Dennis Liu's Research Lab	Aug. 2024 - Jul. 2025
- Research project: comparative analysis of speech-to-text to find the fastest speed that an audio file can be transcribed while maintaining accuracy. - Wrote code for the research project, mastered using ssh and scp for the remote server, presented research at ASDRP's Spring Expo. - Learned research skills (e.g. how to write and analyze research papers) and best software engineering practices (e.g. clean code, GitHub code reviews, using Docker, using ssh).	
ACE Coding Club	Pleasanton, CA
Co-President	May 2026 - Present
- Managing all 3 branches: 3 branch directors, 340+ students, and 84 high school volunteers over the course of 2 school semesters. - Directing ACE Code Day, an annual event hosted at Amador that brings around 200 students and 24 volunteers to offer workshops on everything from robotics to server building.	
Branch Director; Pleasanton Middle School	Jul. 2025 - May 2026
- Managed communications between teachers, students, and school administration. - Organized 2, 10-week long sessions with weekly meetings after school. - Oversaw every aspect of ACE Coding's operations at PMS (e.g. student and teacher signups).	
Technology Student Association	Pleasanton, CA
Co-President	May 2026 - Present
- Continuing to organize chapter-specific competition, Regionals Conference, and Nationals Conference. - Answering any members' questions and keeping up club operations by hosting bi-weekly meetings. - Increasing club reach through workshops open to entire Amador community on relevant topics like agentic AI.	
Vice President of Administration	Mar. 2025 - May 2026
- Organizes the club's operations and communications with club members and school administration. - Responsible for managing social media presence (LinkedIn, Instagram, Discord), email, website, and more. - Instrumental to ensuring the 2026 TSA NorCal Regionals Conference ran smoothly by acting as a middle man between hosts and our chapter's participants (paperwork, communication, questions, etc.).	
American Regional Biology Competition	Remote
Web developer	July 2025 - Present
- Developing ARBC's online competition platform for 160+ concurrent users distributed nationwide. Working on core features like user authentication, anti-cheat mechanisms, and the main test-taking interface. - Implemented Realtime DB to provide real-time, Google Docs-style editing of questions for rounds that required team collaboration.	

VOLUNTEERING

ENGIN	Remote
English mentor	Mar. 2024 - Jun. 2025
- Meeting with a young Ukrainian to improve his English by conversing with him about various topics. 1 hour per week.
